test project is accepted. By agreement between the user (company representatives or the requesting agency) and the center staff, changes in the test program may be made within the objectives of the scheduled program if time is available. When tests are not totally conducted by NASA personnel or by NASA support service contractor personnel, the NASA Field Installation Safety Officer shall verify that the user personnel are fully cognizant of facility safety problems and operations. A current SAR on the facility shall be available to the user personnel for review.

(e) *Test data.* The NASA staff will be responsible for obtaining all test data, its reduction to suitable coefficient form, and the accuracy of the final data, but NASA will assume no responsibility for the interpretation of the data by others. Transmittal of the data will be made as soon as the test is completed and the data are deemed releasable by NASA. For company projects, the data will be transmitted as directed by the company. The data for Government projects will be transmitted simultaneously to the sponsoring Government agency and the contractor (if applicable), unless otherwise directed by the sponsoring agency.

(f) *Shops and office space.* During the conduct of user testing, NASA will provide desk space and at least limited use of the shop facilities to the user whose projects are under test.

(g) *User furnished personnel.* User personnel associated with each project will be agreed upon between the user and facility staff prior to the test.
